#### MURAL: TREE OF LIFE + ANOTHER POSITIVE MURAL FOR 2019

In 2017, students started painting a mural "The Tree of Life" decorated with positive affirmations. We would like to ensure we continue to collaborate on another positive mural for the campus.

We invite you plant up plots of land at the school. You're welcome to donate or participate in this well needed health fair. We look forward to accommodating organizations such as Jamaica Aids Support, Family Planning Board, Registration General Department and nutritionists to make the upcoming event more wholesome. We are starting promotions and rallying for more school supplies and even a solar powered green house for the school to keep the organic garden secure. This garden will be a part of our new sustainability curriculum and will help to provide nutritious meals for the canteen.

Our eco-preneurship program with Project E.A.T. (Ecology, Agriculture, Trade) thank you in advance for your help. We look forward to a successful health fair, upcoming field trips and workshops for 2018.
